

[Podcast Episode 83 - @Tech_LevelUp, #vFit, #vTrailMap and @VMworld with Yadin Porter de Leon \(@porterdeleon\)](#)

VMworld is around the corner and we are joined by a hugely respected community advocate in Yadin Porter de Leon for this show. Yadin is the founder of the Level Up Project (<https://www.linkedin.com/company/level-up-project/>) and the mind behind the #vTrailMap which lays out a phenomenal list of folks and resources to get connected to for raising your skills and value in the virtualization community. We talk about the [#vFit](#) running group, [#vCoffee exchange](#), #vTrailMap and much more.

You also gain some incredible insight into the work happening around mentoring and education that has become a significant part of what both Yadin and Eric Wright have been doing over the past few years with growing success in reaching out to people and helping them to get involved in technology as a way to change their lives.

Make sure to listen before you head to San Francisco in August and get caught up on what's happening there!
