[Podcast Episode 70 - The making of FaaStRuby.io with Paolo Arruda \(@parrudanet\) and Geoff Sullivan \(@sullivg2\)](#)

Episode 70 - The making of FaaStRuby.io with Paolo Arruda (@parrudanet) and Geoff Sullivan (@sullivg2)

PODCAST LINK:

<http://podcast.discoposse.com/e/ep-70-the-making-of-faastrubyio-with-paolo-arruda-parrudanet-and-geoff-sullivan-sullivg2/>

LISTEN TO THE EPISODE HERE:

Paulo Arruda is the creator of FaaSRuby.io which is a serverless platform for Ruby that is already gaining significant traction as a platform. Geoff Sullivan is building the community engagement along with Paulo and shares insights on both how this platform is interesting technically and as a business problem solver.

Serverless is rightly gaining popularity and this will be a must-listen for folks who want to understand some of the challenges and the reasons that serverless is so popular.
